## Isham Randolph's Drainage Plans Succeeded By Modern Conservation Of Water Idea For South Florida

By ROBERT Y. CRECH SP.  
On my first visit to Ritta Island in the spring of 1922, I found nine families living in comfortable homes, a school house and a post office. Yards were filled with tropical flowers, shrubs and trees of various types including poinsettias with 30-foot span and royal palms 30 to 40 feet high.

There were bearing avocado, mango and other citrus fruit trees, reportedly planted in 1890 by Jim O'Neal.

After seeing this and visiting paper and egg fields from which harvest had been made during the winter, I purchased the Jim O'Neal place, paying \$7,300 for the 23 acres. I knew this was the warm mid-winter farm land we were wanting.

Captain Felix Forbes, from whom I purchased the farm, was living in his hotel located on the south end of the island. The hotel was unused as an overnight stop for passengers on the captain's boat line from Ft. Myers to Ft. Lauderdale.

Mrs. Forbes had planted the grounds to tropical flowers, fruits and trees and proudly displayed it to visitors.

Coming to the Glades in 1919, fresh from Uncle Sam's army, I spent three years on a 1,100 acre farm, at Moore Haven, where the cold prevented production of mid-winter vegetables. During the summer of 1922 we moved to Ritta Island.

Due to excessive rainfalls in the fall of 1922, which caused the lake to rise higher than in previous years, and consequently flooding the mainland, the Powers—That is—decided that rather than speed up the work on the St. Lucie, which was under construction, and the completion of the dike which would make main drainage canals, which were designed to relieve the lake of this excess water, they would build the dike and the south end of the lake to the high lake off the mainland.

Meetings were held on Kraemer Island and at Maude Wingfield's store at Ritta post office protesting the building of the dike until sufficient outlet channels were provided.

The following four years were (Continued On Page Twelve)

## Dental Survey Of Glades Youngsters Proves Teeth Need Extensive Repair

### Migrant Committee Is Praised For Its Work

Last week Dr. H. Frank Cox completed the two-month dental health survey among school children in Glades schools. More than 20 civic and industrial groups participated in the program under the leadership of the Glades Migrant Committee.

Dr. Floyd H. DeCamp, Director, State Bureau of Dental Health, praised the committee for the outstanding work they have done in initiating, planning and organizing the dental health program for the Glades.

Also commended were the communities in the area for their support of the project by their interest and financial assistance.

Working a total of 46 days, 23 working days at Negro day camps, schools, and industrial examinations disclosed that 86 per cent of those children examined needed care of some kind.

Cost of the unit here was \$11 per day which was borne by the civic clubs, the school and the parent's ability to pay a practicing dentist was made to determine the need for the service received corrective work from Dr. Cox.

A further breakdown of the findings showed that:

1. Of those needing care there was one of more abscessed tooth.
2. Of those needing care there was one of more decayed baby teeth.
3. Of those needing care there was one of more decayed permanent teeth.
4. Of those needing care there was one of more decayed baby teeth.

## Rains Came But Beans Are Ready

Despite the heavy rainfall in a three to four hour period Wednesday, produce officials agree that beans will be in heavy supply Monday and next week. Damage will be evident, however, no one could say how much.

Rainfall ranged from .67 at Okelanta Refinery to 1.55 measured at the Frost Warning Service here. One report showed closer to two inches fell at the Everglades Experiment Station. Pahokee received 1.35 inches of rain.

## Clarence M. Lee Rites Saturday

Clarence M. Lee, 61, pioneer farmer of Lake Harbor, for 31 years died at his home Thursday morning at 3 o'clock.

A native of Georgia, Ala., he came to Lake Harbor in 1921 and has lived there since the farming business.

Funeral services will be conducted Saturday at 2 p.m. at Lake Harbor Methodist Church with the Rev. Nicolo De Stefano officiating, assisted by the Rev. (Continued On Page Eight)

## Dr. Cox Issues Stern Warnings

"The number one health problem in the Glades schools is dental decay, and over 86 per cent of the children in the Glades need immediate dental care," states Dr. H. Frank Cox, State Board of Health Director.

Besides the startling facts contained in the accompanying article, the findings of the dental unit, Dr. Cox has formulated this vital information which should be read and studied by each child and parent in the Glades.

Frequently dental decay begins before the child is five years old. By the time the child is in the first grade, he or she usually has five or more decayed baby teeth. Nearly one child in three (in the survey) was found to have a draining abscess.

"The first set of teeth should be in service from the time the child is six months old until he is ten years old," Cox said. "We found that every child who in the first grade has one or more decayed permanent teeth, by the second grade more than two decayed permanent teeth and had permanent teeth indicated for extraction."

"The children not only had badly decayed teeth in the first and second grades, but frequently there was beginning periodontal disease (pyorrhea) because of the filthy oral conditions. The children in the older grades were losing their permanent teeth. By the time they were first appeared in the mouth."

Cox went on to say that at the present rate of neglect over half of the high school students

## Girl Scout Fund Drive Needs Your Support For A Successful Program

Editors Note: This is part two of a two-part article published in the Glades Herald. The first article explained the purpose and need for the Girl Scout Council and the organization of the fund drive.

The Girl Scout Council is a non-profit organization which is organized to provide service clubs pointing out the following breakdown of the total costs of Girl Scout Council which numbers over 4,000 girls and adult volunteers.

Some of the expenses are borne by the girls and the leaders, he said. These include their personal expenses, such as costs of uniforms, insignia, etc. They also support the national organization through payment each year of their registration fee.

Next there are the expenses borne by the troop. Money for these purposes is derived from troop dues, and proceeds from troop money—raising projects

## Council Passes Sewer Ordinance Construction Of System Will Begin Before June 1, Engineers Promise

### Hollingsworth Is Lions' President

Belle Glade Lions Club president for 1958-59 is T. E. Hollingsworth who was elected along with the full slate of officers for the organization at the Wednesday luncheon meeting at the municipal country club.

Following the public hearing Wednesday night on the proposed sewer charges, the Belle Glade City Commission determined that no changes were necessary. Ordinance 978, a 28-page document that took 45 minutes to read, was then passed.

The ordinance ordered the construction of a sewer system and called for the issuance of \$500,000 in revenue bonds and instructed City Attorney Claude Jones to proceed with validation in Circuit Court.

One third of the cost of the lift stations, interceptor mains and treatment plant will be paid by the government grant which was originally \$207,536 for the city-wide plan.

The engineers and fiscal agent stated that the revenue from the sewers would pay the operation and debt service for the system. It might even create a surplus.

Glades cause didn't, and to make the bonds more saleable, a \$3,000 reserve fund from the city's utility tax has also been pledged, which will be a general obligation of the city's new effort.

## announces The Most Powerful, Yet Safe Reducing Drug Ever Released For Public Use!

Federal Health Authorities Approve P.P.A.® As Safe Without Prescription. This Remarkable Drug For Reducing Is So Incredibly Effective It Limits The Ability Of Your Body To Produce Sensations Of Hunger! Helps You Lose Weight Fast Without Special Diets, "Plans," Exercise Or Feeling Of Self-Denial Because It Appeases Your Appetite At The Same Time!

It's New - Entirely different! Revolutionary!

Not a bulk-filler, reducing candy or wafer. HUNGREX WITH P.P.A. is the first and only type of non-prescription product that includes these words on the label:

in the treatment of obesity

obtainable now for first time without a doctor's prescription!

At Last!

After many years of research comes the most powerful yet safe proprietary drug for reducing now known to medical science. This means that a revolutionary reducing aid has arrived that really works... that tends to limit the ability of your body to produce sensations of hunger! And thus you can now lose excess weight fast without special diets or "plans" formerly found in other types of reducing products!

The Name Of This Newly-Released Drug Is P.P.A.®

It is so effective that it helps satisfy your appetite within minutes after you take it. It is so effective that once it starts to work in your body, you are as naturally protected against gnawing hunger sensations and a "runaway appetite" as it is reasonably possible to be. And because you won't normally feel hungry you will no longer be tempted to overeat! Thus for the first time you can really lose excess weight fast without special diets of any kind whatsoever!

Why?

Because when federal health officials recently released P.P.A. to the public as safe, it marked the first time in medical history that a drug powerful and safe enough to help overcome the relentless craving of hunger could be released for your use without a doctor's prescription! The first time in history that any non-prescription weight-reducing product stands on the label: IN THE TREATMENT OF OBESITY.

Thousands Now Lose Weight Who Never Thought They Could!

Imagine the thrill of overweight men and women who write day after day, some reporting "remarkable" weight losses up to 5 lbs. the very first week... 15% pounds in 2 weeks... up to 18 1/2 lbs. the very first month with P.P.A. ... and even recording weight losses of 35 to 41 lbs. without doing anything difficult, dangerous or unpleasant!

Control Of Your Hunger And Appetite Is Automatic—So You Don't Even Have To Count Up Your Caloric Intake With A Pencil

Best of all, you'll still enjoy your food, still eat luscious steaks, chops, roasts, stews and other favorites, and still your weight will come down. Because P.P.A. drastically cuts down your craving for food and caloric intake, without affecting your enjoyment of food.

Unlike every other old-style reducing product you've ever tried or heard of, we give you no thinly-disguised "plans" or diets of any kind to follow, because the daily recommended dose of Hungrex with P.P.A. helps appease your appetite and is designed to protect you from overeating all through the day. If you're a normally healthy person, and you're like the thousands upon thousands of other overweight folks who have successfully tried this new wonder product, you won't normally crave food between meals. You won't suffer the usual hunger pangs, or have that "empty" gnawing feeling. You'll enjoy your eat, but you simply won't feel forced to overeat, because you're just not hungry! And when this happens, when you cut down your caloric intake, off comes

How Could Anything Be Easier Than This? You simply take a tablet that's much tinner than an aspirin tablet before each meal... and that's all you do.

P.P.A.'s Automatic Control Of The Appetite And Hunger-Producing Centers In Your Body Lets You Enjoy What You Eat—But You Simply Won't Eat Less!

your excess fat. It's simply burned up by your body in the form of a glorious, new release of more attractive-looking skin!

Nothing Like It Ever Available Before For Quick Reducing Without A Prescription!

As plainly as we can state it, so that there is no possibility of confusion in your mind between Hungrex and any other product: You will not eat a "plan" or diet of any kind when you open your Hungrex package, as you're used to finding in other types of non-prescription reducing products! Because only Hungrex, with approved strength P.P.A. has shown it to be powerful enough to help overcome the most powerful craving of a human being can long endure—HUNGREX! And Hungrex with P.P.A. is the only such powerful type of reducing aid that your government has ever released as safe without prescription! No other kind of reducing product can make this statement to you.

Hungrex With P.P.A. Works As We Say—Or Your Money Back

Naturally, individuals vary. So we say try Hungrex for 1 day, 5 days, 10 days—the full 21 days if you like. Check your weight losses as you go along. See the wonderful changes in your body that takes place almost daily. Then either you're fulfilled the promise to you—either you're delighted with the way you've lost weight—either you look and feel better—you've found the secret to a safe, pleasant way to get your weight down and help keep it that way—merely return unused portion for your money back.

## NEGRO NEWS

### Overcrowding Is Being Eliminated

Certain relief of overcrowded conditions in three Negro schools in the Glades will be available upon completion of construction either in progress or ready to begin.

Largest of these projects is the nearly \$350,000 addition at Lake Shore High School, the only high school in the Glades for Negroes. Space for about 180 students will be available when the six classrooms are finished.

The present school population there is about twice what the building was built to accommodate. Pupils are meeting classes in locker rooms, the library and one school bus (The Herald, Jan. 10).

A \$50,000, four-classroom addition being built by Blanton and Uwin may be completed before the completion of the

school term. Principal E. H. Fitzgerald said one class was meeting in the clinic since there were only 22 rooms to take care of 825 students.

Classrooms average over 40 pupils (The Herald, Feb. 7) with a high of 48.

At East Lake School, Pahokee, a \$54,838 project for four new classrooms began Dec. 12, 1957 and a \$27,909.66 field house project with showers and equipment rooms got under way Mar. 27 this year. A science room is included in the four classrooms.

### Negro Deaths

Last rites for Emmaline Whitefield, 67, of Clewiston, will be held at Shiloh Cemetery, Albany, Ga., following her death at Clewiston April 6. She is survived by a daughter, Bertha Jones, also of Clewiston.

Taylor Funeral Home was in charge of local arrangements.

### East Lake Revue Features Space Theme April 30

The East Lake School Revue for 1958 is rapidly taking shape and will be ready for launching at the Showboat Theatre on Wednesday evening, April 30th. This year's revue will be the ninth production of this popular entertainment.

Appropriately titled SPACE FOLLIES OF 1958, this promises to be one of the most unusual of the series. Truly an all-school activity, pupils from every grade from one through nine, as well as members of the faculty will appear before the footlights during the performance.

Highlights of this year's FOLLIES will include "Tom Thumb's" Wedding Day; a wedding rhythm by primary pupils; "How High the Moon"; song and dance number by sixteen "Moon Maidens" from the middle grades; "The Chequerboard" faculty skit with Miss Rachel Service, Mrs. H. A. Singletary, Calvin Darville, Arthur Lee Jones, and other students, and have become involved in the usual "triangle affair," but with more sides than any self-respecting triangle should have with rib-splitting results; the Landing on Venus to "Look For the Silver Lining"; a fabulous parade number with the charming East Lake models including Misses Dupont and Terrell of the teaching staff.

Another outstanding feature of this year's FOLLIES will be presented by Coach Oliver Davis and his physical education "Men From Mars." This is a series of living pictures or tableaux done by pupils of the department while ensconced in a painted coat of gold bronze. Mark the date now on your calendar! The time: Wednesday, April 30th, 8 o'clock p.m.; the place, Showboat Theatre, Palm Beach. Tickets: East Lake's SPACE FOLLIES OF 1958.

### Cab Driver Hurt After He Falls Asleep Driving

Leroy Bigelow, 28, Opa Locka Negro taxi driver, was charged with failure to have his vehicle under control by FHP Trooper George Emerson Tuesday morning after Bigelow's taxi overturned and crashed on U. S. 27 south of South Bay.

Trooper Emerson said Bigelow, who had been visiting his mother at Belle Glade, apparently fell asleep at the wheel. The taxi, owned by Black and White Co., Opa Locka, while traveling south, crossed the center line and traveled 417 feet on the left shoulder,

turned over twice and slid 78 feet before coming to a stop upside down in the northbound lane.

Bigelow was admitted to Belle Glade Memorial Hospital with lacerations and a possible skull fracture, Emerson said.

### Two Clewiston Soldiers Set For Army Exercises At Ft. Campbell, Ky.

Sgt. William R. Blandon and Pvt. Sylvester R. Tate, Jr., of Clewiston, Fla., are scheduled to participate in "Exercise Eagle Wing," a 101st Airborne Division maneuver at Fort Campbell, Ky., April 16-30.

The maneuver, which will involve more than 15,000 paratroopers, is designed to test the effectiveness of the division under simulated combat conditions.

Sergeant Blandon, son of Mrs. Laura M. Blakely, is a squad leader in Company B of the division's 501st Infantry. The 22-year-old soldier entered the Army in October 1953 and was last stationed in Germany with the 19th Airborne Division. Tate, son of Mrs. Virginia Tate, Route 2, is an automotive repairman in Company B of the division's 501st Infantry. The 19-year-old soldier was last stationed at Fort Jackson, S.C. He was graduated from Harlem Academy in 1957.

### Woman Burned Seriously By Enraged Husband

George McIntosh, Belle Glade Negro, has been placed in the custody of county officials under \$1,000 bond, and charged with aggravated assault on his common-law wife.

Frances Hendrix, 38, was admitted to Belle Glade Memorial Hospital where her condition is described as good after McIntosh allegedly poured kerosene on her and set fire to her. The flames were extinguished before the woman was burned seriously.

### Negro Births

Ben and Nina Wynn, born 4-2-58, Clarence and Daisy Robinson, son, born 4-7-58, Louise Evans, son, born 4-5-58.

Motels which are members of the Quality Courts United, Inc., a non-profit organization, must maintain rigidly high management, courtesy, comfort, cleanliness and physical property standards. To insure these standards are constantly upheld, a Quality Courts Motel is subject to inspection at any time.

### Certified Copies

#### Required By VA On All Claims

L. V. McClelland, Glades Service Officer for Palm Beach County announces that the VA office at St. Petersburg insists that documentary evidence in reference to births, marriages, divorces and deaths, submitted in support of claims must be in the form of certified copies. Photostatic copies will not be accepted, unless they are photostats of certified copies and clearly show the Seal and the signature of the Custodian of Public Records.

When a claimant is advised by VA letter that they are required to submit evidence of birth, marriage, divorce or death and any of these events occurred in the state of Florida, they should send the VA letter to the Department of Health, Bureau of Vital Statistics, Jacksonville, Fla., for a document or documents required by the VA to State Board of Health, Bureau of Vital Statistics, Jacksonville, Fla.

When the birth, marriage, divorce or death occurred outside the state of Florida, (except for deaths in service or in government hospitals) applications should be made as follows: For Birth Records, Marriage Records and Death Records apply to Department of Health, Bureau of Vital Statistics, Court House of the county and State in which the event occurred.

If Birth Records are not available at that source apply to: Department of Commerce, Bureau of the Census, Washington 25, D. C. For Divorce Records, apply to the Clerk of the Court that granted the Divorce wherever it is located.

When applying for Marriage Records, supply the name of both parties to the marriage, the date of marriage and the place (city or town) or marriage.

When applying for Death Record, supply the name of the deceased, the date of death and the place (city or town) of death.

When applying for Divorce Record furnish the name of both parties to the Divorce action and the date the Divorce was granted.

A recent survey by the State Board of Conservation shows that salt water sports fishermen spend nearly \$256 million a year in connection with the sport.

### 10 CLUES TO CANCER

Clue No. 8, Age

Many scientists regard the cancer cell as an eternally young cell. It is born, it grows, it divides, it reproduces, it lives, it dies, it is born again.

Some of the most profound progress in cancer research has been made in the progress centers around efforts to determine how cells age.

And some progress has been made in determining the factors which regulate cell growth and cell death. It may prove feasible to control cancer in humans with cell-aging drugs.

jurisdiction. This plan is to meet once weekly with the children in that town at the High School. There we discuss any problems that the group may have and advise dismissal, I talk to any individual that may have a problem. When there is a lack of problems to discuss, short lectures are given. The subject matter of these lectures are along the lines of character guidance. This is a start in strengthening the meaning of probation and in providing definite regular contact between the Counselor and the Probationers.

I have started the ball rolling (slowly to be sure) to get the cooperation of Church officials. I feel that their men's organizations within the church can do much to assist me in guiding the probationers and help the children avoid further difficulty.

As time goes by we plan to set up a similar program for returnees from County and Institutions. This of course would not be set up on a compulsory basis, but their attendance to counseling sessions would be strictly voluntary.

Suggestions from the general public as to how I could strengthen our probation system would be most welcome.

Safety Signs

Safety signs recently purchased for three Glades cities by Post 8181. Veterans of Foreign Wars here were recently placed conspicuously around the city under the supervision of Police Chief Charles Goodie. (shown here installing a sign near the school zone. Eight signs were supplied to Belle Glade, two for South Bay and three to Pahokee.

tative said the Public Health Service would act on the plans and contract in time for commencement of the work before the June 1 deadline set by the state and federal government.

The engineers estimate that the sewers will be operating in one year. This gives property owners that much time to find \$75 to \$125 to install lines from their property to the sewer connections.

The council stressed that while the city does have plans for the complete city-wide system, only the area between Ave. 10 to Ave. 6 and Main St. to SW 8th St. will get sewers immediately. Depending upon contract bids and the final total of the grant, the area may be altered to include certain other adjacent areas.

**Other Action**  
The Council also announced that details on the swimming pool dedication would be forthcoming next week.

Agreed to spend \$5,000 in the next two years for marina development on the city marina on the inland waterway.

Ordered strict enforcement of an ordinance prohibiting trucks larger than three-quarter ton from parking in streets when on delivery runs.

Carried a motion to place survey stakes on the boundaries of Lake Shore Park as requested by a fence contractor. The Lake Shore Athletic Council presented the request.

Appointed R. W. Lanier to meet with the civil service board to discuss final rules and regulations for examinations.

Reopened a 300-foot wide strip from Ave. E. to the city limits on 16th St. from R2 to 11, light industrial.

Transferred the city's donated swimming pool money to complete payment of the pools.

**Labor Shortage**

ume production, he said. Crews which were directed to the citrus harvesting in the central part of the state in January are being called back.

Anyone wanting work or wanting workers should channel their requests through FSES for maximum effectiveness during the labor shortage.

Non-ag employment is picking up with several orders pending at the FSES office. There is work for anyone except people who are too particular about what they do or who would like to do something else but lack the qualifications.

"As of Monday we will be in better shape employment-wise than any other area I know of. Our whole economy is directly tied into our agricultural situation," Mosely said.

"Since our economic condition was brought on primarily from the freeze-flood condition of December, January and February, it is possible to assume that when the volume picks up during May and June, the area will perhaps be in better shape than the state or nation, except for isolated cases where grow-

### Cigarette Tax Reported

Money available for distribution from cigarette taxes collected in February and reported this week amounts to \$5,047.27 for Belle Glade, the state beverage department reported.

Clewiston's share is \$2,380.23; \$2,394.49 for Pahokee and \$1,272.50 for South Bay. A total of \$1,848,670.56 will be distributed to incorporated municipalities of Florida.

### Three Miami Youths Are Charged With Auto Theft While At South Bay

Stolen car was recovered at South Bay Tuesday when three Miami youths stopped at South Bay Truck Stop with motor trouble. Manager Red Collins suspected foul play when he discovered that tractor fuel had been placed in the gas tank.

He checked with the Florida Highway Patrol and learned that the car had been stolen Monday night. Listed as owners of the car was Beyer Furniture Co., Miami.

Arrested by FHP Trooper George Emerson was David J. Jostick, 17, Charles Rutherford, 19, and a 16-year-old boy, Rutherford and the boy both told Emerson they did not know the vehicle had been stolen.

Trooper Emerson said Belle Glade police would probably return the boys to Miami to see charges after further investigation by Assistant Juvenile Counselor Gene Duncan here.

### Increase Enacted For 1958 Acreage Reserve Program Funds ASC Says

An increase in 1958 acreage reserve program funds has been authorized for this county as a

result of recent legislation enacted by congress according to E. F. Froehlich, chairman, ASC County Committee.

The revised allocations by commodities is \$11,200 for rice. The additional funds are required to be used to cover agreements to participate in the 1958 acreage reserve program which were filed prior to closing date for accepting agreements.

The local ASC office is notifying farmers affected and those notified will have 15 days to visit the local office to file an agreement. Funds may possibly be adequate to cover all intentions for rice. Complete information on the program may be obtained from the ASC office in the Sanders Building, Belle Glade or the Mounts Building, Military Trail, West Palm Beach.

The rate of industrial growth in the South during the past 20 years has led the nation. The pulp and paper industry is a leader in this Southern progress.

Sixty-three primary pulp and paper mills are located in Dixie. They employ over 77,000 persons in the woods, mills and offices. Another \$1,000,000 harvest pulpwood.

The pulp and paper industry annually contributes over one billion dollars to the South's economy at the rate of three million dollars a day. It also is giving new impetus to the region's agriculture because pulpwood has become a vitally important new cash crop to Southern farmers.

Farmers and other landowners are assured an expanding market for their trees since paper consumption is growing by leaps and bounds each year. It is predicted that 50 to 60 percent more pulpwood will be needed by 1967.

Growing trees—like growing any other crop—requires sound management. Forests that are cut properly go on producing trees generation after generation. Forests that are now non-productive can be converted into money-making areas.

### PULP AND PAPER DAY—April 15

Pulp and Paper Day will be celebrated throughout the South on April 15. This event will focus public attention on the economic importance to the region of the pulp and paper industry. Its role in the South's modern agricultural development... and the tremendous economic opportunities more productive forests offer in the years ahead.

## Local Boy Signs With Mercury Records

COMBINING musical talent and tedious rehearsals to makeup the quartet known as "The For-Sites," whose records will be released on Mercury Label in the next few days are, top down, Jim Chancery, Shreveport, La.; Buddy Malcolm, son of Mr. and Mrs. U. W. Malcolm of this city; Don Sutton, Longview, Texas; Norwin Hughes, Vernon, Texas.

These four North Texas State College students are awaiting the results of a recent change in their music production format. They originated as a modern harmony group, but for recording purposes changed to rock 'n' roll.

Malcolm, Hughes and Clancy, are transfer students from Baylor University. At mid-term they entered North Texas State College, (former Alma Mater of Pat Boone) to find their fourth member. Within six weeks, "The For-Sites" had recorded for Mercury.

Malcolm is a veteran and sang with a quartet while on active duty and received a "Bronze Roger" the highest award given to military entertainers by the U. S. Air Force. Hughes was a member of the Texas All State Chorus in 1956. Clancy, who

first stand violinist in the 1956 Louisiana All State Orchestra. Representatives from Baylor in the 1956-57 Southwestern Inter collegiate Talent Show, Malcolm, Hughes and Clancy took top honors both times. Sutton was chosen best band musician of Longview, Tex. in 1956 and has appeared regularly on the Saturday night stage shows with Fesser and the Aces at N. T. S. C.

"The For-Sites" have appeared in Dallas, Fort Worth and Shreveport and have appeared on the "Jumpin' Jack Sandert disc jockey show over radio station KDEL in Shreveport. Sanders, who is also manager for the group, announced that the specific time is not available, but the quartet is scheduled to appear on a Southwestern television and radio show.

LAWRENCE E. (Okeelanta) WILL

## CHIZZWINKS

If a man were to put his mind to it, I reckon he could write a book about the pestiferous insects, numerous in variety and multitudinous in number, that used to infest these Everglades. There were redbugs (chiggers) in the custard apple woods, hardshell worms in the sawgrass, gnats, flying ants (oh boy, did they have hot feet!), deer flies, horse flies, and, of course, in summer, mosquitoes by uncounted millions.

Some of these species have vanished and the remainder have been DDTed to reasonable numbers, until now, if your wife hears the buzz of a solitary mosquito, she can't sleep until she gives it the old KO.

Among the varieties of bugs that are far less numerous of late, is one that rarely ventured far from the lake. In the grassy shallows along the lake shore, and particularly around the cattail camps and skinn benches, there, used to lurk swarms, yes, myriads, of a flying critter euphemously called the Chizzwink.

Slightly larger than a mosquito, which they closely resemble, light gray and having fuzzy legs, they were commonly known as "blind mosquitoes". This was no reflection on their eyesight, but referred to the fact that they could not bite, and what a blessing that was! When the notion struck them to migrate, which was usually at night, you would be lucky to not be smothered if caught in a swarm.

Even in daytime they might be so thick on the lee side of a white painted boat or house that it would appear to be painted gray. When attracted by the rigging lights, the head end of a dresge I have actually seen them fall and die in such numbers that they would pile inches thick on the deck, and next morning would be shoveled off with the coal scoon.

Ivan Van Horn, while taking Mr. Harrell and his family from South Bay to catch the morning train leaving from Moore Haven, was overtaken by a swarm of these pests which smothered out the lantern hanging in the cabin of his boat. Repeated attempts to relight it were fruitless as they even extinguished the matches. The boat's running lights, capable of withstanding a gale, were likewise stifled by the magnitude of their numbers.

Ivan continued his course, intending to be guided by the beacons, installed by the U.S. Lighthouse Service. He soon discovered, to his dismay, that they also, had been smothered out. The night was spent around on a grassy shoal, and the Harrells had to get the next day's train.

Of course, this swarm was worse than most, but it shows what they could do. So you see what I mean by saying it was a lucky thing that chizzwinks were "blind".

## POST MORTEM SIGNATURE

Henry R. Chase, long time fire-chief of Miami, swears that this is it. I wasn't there. Chase was staying at Moore Haven. In the hotel, the room which adjoined his was occupied by "Parson" Carlton, a member of the same prominent clan which furnished us with a governor. At this time "Parson" was president of the Moore Haven Bank.

One night, an insistent pounding on the banker's door aroused Chase, who then listened to the following conversation: —

"Why's there?"

"Charlie Hurd."

"What do you want?"

"Mr. Carlton, Pat Sutton just got shot!"

"Well, what about it?"

"Plenty! He owes me some money and now how in the devil am I going to get it?"

"Well, he has plenty in the bank. Just have him write you a check for what he owes you."

"But he's dead, I tell you! He's lying there in the back room of the doctor's office, dead as a mackerel!"

"Don't be such a dim wit! You want your money don't you? Get yourself a blank check and a pencil. Put the pencil in his hand and then just kind of steady his hand while he signs the check. Bring it around to the bank in the morning and I will cash it for you. And now don't bother me any more at night unless it is for something important!"

## Retailers Assn. Sees Claim Courts As 1958 Project

Strengthening of existing Small Claims Courts in Florida and establishment of such courts in counties still without them, was announced today as a 1958 project of the Florida State Retailers Association.

The public generally is not fully aware of the importance and facilities of Small Claims Courts, according to Dallas L. Hostetler, executive director of the state merchants association. "Moreover, some 23 Florida counties at present do not have Small Claims Courts," Hostetler added. His organization has just published a brochure entitled, "How to Use Your Small Claims Court." It explains the informal Court procedures.

A committee of Small Claims Courts Judges is being invited to meet with retail leaders in an effort to broaden the services of the courts, the Florida State Retailers Association has advised. Possible need for legislative action has been listed for study.

Activation of a Small Claims Court in any county is by resolution of the board of County Commissioners. The Board can do this on its own motion or by petition signed by no less than 25 registered voters. Sole remuneration of the judges is from fees.

Under Florida Statutes, Small Claims Courts have jurisdiction in claims up to \$250, with a higher maximum in several major population counties. First judge of a newly activated Court is appointed by the governor. Successors are elected for four year terms.

above average in rainfall; the hurricane of '28 broke the dike and drowned 800 folks in the Moore Haven area. The broken dike allowed the lake to reach its normal level so that I returned to the island during the winter of '27 and farmed the lands successfully.

The levee around the south side of the lake was rebuilt and the hurricane of '28 washed the dike out on the southeast part of the lake drowning several thousand folks. Practically all homes and property were destroyed and again the fallacy of the dike around the lake was demonstrated unless necessary channels for discharge of water in years of excessive rainfall were provided.

Following the '28 hurricane the old levee was rebuilt with funds supplied by Dahlberg of Southern Sugar.

Mr. Hoover visited the area following the '28 hurricane and being an engineer and president-elect, he assured the folks here that he would exert his influence to see that a permanent levee was built around the lake to prevent a recurrence of the loss of life.

With several years of less

than average rainfall and the lowering of the lake by the engineers as far as practical, dredging construction of the levee we had no interference with island farming until 1937.

Following the high water of '37, Charlie Thomas and I dredged Capt. Holloway's dredge and installed a dike around Ritta Island in accordance with plans and specifications of the U. S. Engineers. Horace Bestor of Clewiston designed the interior canals, ditches and pump installations, so that we might farm under the ten existing conditions.

The cost of the levee, and drainage facilities in excess of \$100,000, was paid for by the landowners, with no help from the state of federal government.

Still the canals originally designed by Isham Randolph were dug to certain specifications so that they would carry the lake water to the ocean and Gulf, were not complete.

The West Palm Beach, the Hillsborough, the North New River, and the Miami Canals each had obstructions that were not removed until the Overall Plan was built. The Miami Canal is just now being dug.

The St. Lucie was reduced fol-

brought to the original specifications. Having provided the St. Lucie and the Caloosahatchee for controlling the lake level after '47 they have not been used to capacity when we had high water conditions. Nor have the West Palm Beach, Hillsborough and North New River been used to capacity for lake regulation.

We continue successfully to farm until 1947, when, following the floods of '47 and '48 Conservation of water for the benefit of mainland farmers and the growing population of the east coast became the most important question.

Isham Randolph designed canals to drain the lake and the Glades for the benefit of farmers; modern thinking is conserving water for the benefit of all south Florida.

Since '47, we have had excessive high water here in the lake for conservation purposes seven out of ten years, with consequent serious damage to island farming.

These facts demonstrate that since 1922 the lake level has always been considered from the standpoint of the mainland not only immediately around the lake, but also for the benefit of the whole and we have resigned ourselves to this fact... that islands have been sacrificed for the benefit of the whole of south Florida.

We have not resigned ourselves to the fact that our property should be taken for the benefit of the whole and we were paid a measly 50 per cent of the appraised value.

## Migrant Committee Is (Continued from Page One)

**RESULTS**  
The committee has taken every opportunity to evaluate the results of this program and will report recommendations for next year by bringing their ideas to local groups as well as county and state agencies.

Mrs. Margaret Mosley, Glades area supervisor of schools, has compiled facts and figures to make her recommendations to the necessary parties to improve dental health.

Chairman Morris said probably the greatest asset of the program was a dental education program which ran concurrently with the examinations. Students were taught the need for proper dental care.

Following an examination each child was given a card which showed the child's needs. These cards, after examination by the parents are to be taken to a dentist where further examination and treatment is recommended.

After treatment indicated on the card, as well as crooked teeth and other imperfections are considered, the dentist fills in the card which is then returned to the school record after the work has been done.

**Examinations**  
The following chart gives the complete breakdown of the dental unit's work. Only grades one and two were screened, except at Canal Point and Pahokee where grades 1-6 were examined.

Tooth brushes (1,000) are being given free to Belle Glade and Ocoola school children by the Belle Glade Lions Club to continue the dental health program here.

By next year the migrant committee hopes to have a full program outlined or in effect. Seven counties already have their own mobile dental units. The committee is studying such a possibility for Palm Beach County.

Public advertising programs will probably be initiated to carry on a program of strict dental health. With state and county assistance, the Glades area is doing something about poor dental health.

## Dr. Cox Issues

(Continued from Page One)  
will need some type of artificial denture to replace missing permanent teeth.

Many high school seniors will be graduating with few or no permanent teeth.

**What To Do**  
There are not enough dentists in this area to attend to the decayed all of the damage already done. The only practical solution is to prevent tooth decay from occurring.

"The people of this area have to make a choice," Dr. Cox said. "Either allow the existing situation to persist and condemn their children to the life of a dental cripple, or prevent the decay and the periodontal disease."

Dr. Cox went on to say that research has attributed tooth decay to one factor, the excessive use of sweets. Substances high in sugar are converted by oral bacteria to acids, which in turn destroys tooth structure. Prevention of decay can be accomplished by:

1. Substitutes fresh fruits for candy.
2. Limit candy consumption to after mealtime and then brush teeth immediately.
3. Rinse mouth with water thoroughly when tooth brush is not available, but brush regularly.
3. Visit a dentist early in life and then twice a year to effectively control existing cavities.

**Choice Is Simple**  
"The choice is simple," Cox said. "A tooth brush three to five minutes each day and control sugar intake; or suffer decay, abscesses, pain and deformities."

**John Allen Lee Is Named On Merit List**

John Allen Lee, son of Mr. and Mrs. W. L. Lee of 619 NW Ave. F, Belle Glade, has been named on the Merit List at Emory C. Oxford, according to Registrar M. C. Wiley. This scholar honor is granted to students for outstanding academic work and excellent deportment during the preceding quarter.

## Woodruff Found Guilty Friday

Leland H. Woodruff, 36, Ocoola Center, was found guilty Friday of manslaughter, culpable negligence and leaving the scene of an accident last June.

Woodruff, now on his same \$2,000 appearance bond pending a motion for a new trial by Atty. H. S. Ives, faces a maximum sentence of 20 years and a \$5,000 fine on the manslaughter count; one year and \$1,000 for negligence and one year and \$5,000 for leaving the scene.

A warrant dated Mar. 26 signed by Point Pummer charged Woodruff with disorderly conduct and threats of bodily harm and intimidation of a witness. This fact was brought out in court testimony.

In view of the verdict returned, the warrant has not been served.

The six-man jury took less than 15 minutes to return the verdict.

Woodruff's charges resulted from an accident on SR 15 in which Rosalyn A. Farmer, daughter of M. F. Farmer, former guard at Glades State Prison Farm was killed.

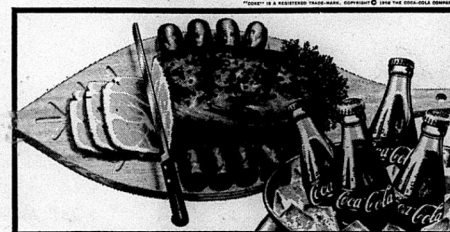

Woodruff was driving a car which smashed into another car driven by Miss Gloria Crosby, Belle Glade, in which Miss Farmer was a passenger.
